Profile

Diligent Software Developer with a knack for system design, development, and deployment. Always ready to contribute to team efforts and expand knowledge.

Employment History

Consulting Full-Stack Developer

Self-Employed • Jul 23 - Present

- Collaborated with multiple B2B and B2C firms, using a diverse tech stack that includes NextJS, NodeJS, Socket.io, MongoDB, PostgreSQL, PHP, MySQL, Redis, TypeSense, Docker and Nginx, to create tailored solutions.
- Revamps led to improved UX and SEO, validated by positive client feedback, affirming the effectiveness and efficiency of the solutions.

Full-Stack Developer

IceCubes Technologies LLP • Aug 22 - Jun 23

- Developed backend servers for two projects using NodeJS, PostgreSQL, and GraphQL, and built frontend systems with NextJS and React.
- Contributed to mobile app development using Flutter and React Native.

Director Of Engineering

Icrewsystems Software Engineering LLP • May 20 - May 22

- Managed B2B, B2C and D2C projects for diverse clients across the US, Europe, SE Asia, and India, overseeing planning, execution, and software department operations. Held 2 other positions.
- Recognized for excellence with awards such as Employee of the Year, Innovative Design Solution, and Best Mentor.

Web and Mobile App Developer

Synergy Business Management Solutions • Oct 18 - Nov 19

- Interned with the IT Department, gaining hands-on experience in industry-level software development. Utilized HTML, CSS, and JavaScript for web development, and leveraged Flutter and Java for mobile application creation.

Education

Indian Institute of Technology, Madras

BS in Data Science • Jan 22 - Present

- Secured admission in a prestigious institute for a 4-year Bachelor's program in Data Science, AI, and Machine Learning, ranking within the top 0.01% of the total applicants.
